

## TECHNICAL EXPERT PANEL COMPOSITION (MEMBERSHIP) LIST TEMPLATE

**Project Title:** Palliative Care Measures Project

**Dates:** January 2019 – August 2021

### Project Overview:

The Centers for Medicare & Medicaid Services (CMS) has contracted with the American Academy of Hospice and Palliative Medicine (AAHPM) as part of the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) to develop patient reported outcome performance measures, in the areas of pain and symptom management and communication, for patients with serious illness (including those receiving palliative care). The contract name is the “Palliative Care Measures Project.” The contract number is 1V1CMS331639-01-00. Under this MACRA cooperative agreement, AAHPM is working to advance clinical quality measure development for palliative care patients with serious illness through the engagement of stakeholders such as measure development technical experts, clinicians, clinical specialty societies, patient advocacy groups, patients/families/caregivers, healthcare systems and others. A Technical Expert Clinical User Patient Panel (TECUPP) was established instead of the traditional TEP to be inclusive of a broader range of stakeholders in the measure development process.

The following individuals were selected through a nomination process who represent differing perspectives and areas of expertise as listed below. Each has agreed to serve on the TECUPP for this project.
