

Dr. Amanda Thompson is the Chief of Pediatric Psychology and Director of Pediatric Programs at Life with Cancer, a program of the Inova Schar Cancer Institute in Northern VA. Offering evidence-based treatments to children, adolescents, and young adults with cancer or with a family member with cancer, she addresses adjustment to illness, depression, anxiety, behavioral challenges, grief/loss and other psychological difficulties that families may experience over the course of a loved one's illness. Dr. Thompson has particular clinical and research interests in bereavement, program development, and standards of psychosocial care for children with cancer and their families. She has published in numerous peer reviewed journals and regularly presents at national and international scientific conferences. She is the Co-Founder and Co-Chair of the Palliative Care and End-of-Life Special Interest Group for Division 54 of the American Psychological Association (Society of Pediatric Society) and a longstanding member of several committees of the Children's Oncology Group.

Dr. Thompson received her Ph.D. in Clinical-Developmental Psychology from the University of Pittsburgh, completed her predoctoral residency in pediatric psychology at the A.I. duPont Hospital for Children in Wilmington, DE., and completed a two-year post-doctoral fellowship in pediatric psycho-oncology at Nationwide Children's Hospital in Columbus, OH. She is currently a Clinical Associate Professor in the Department of Psychiatry and Behavioral Sciences at the GWU School of Medicine and Health Sciences.
